

All WD-40 uses for Farming

- Drives debris from rototiller bits
- Drives gunk from bearings seized by fertilizer
- Drives moisture from shovel handles
- Eases assembly of vinyl fencing
- Frees locking pins on tiller
- Helps dissolve rust from apple bagging machines
- Helps dissolve rust from corn sheller
- Helps dissolve rust from hog equipment
- Helps dissolve rust from pruning shears
- Helps keep paint on farm machinery shiny and free from cracks
- Helps start wet engines
- Keeps blades from rusting on garden plow
- Keeps garden plant cages bright and rust free
- Keeps grass from sticking to lawnmower blades
- Keeps plant supports from rusting
- Loosens drive chains on hay balers
- Loosens pulleys on cable-operated bulldozers
- Loosens threaded joint on water pumps
- Loosens valve bolts on tiller units
- Lubricates barn door locks
- Lubricates barn door runners
- Lubricates fence stays
- Lubricates foot feeder on tractor
- Lubricates garden windmills
- Lubricates gears on earth-moving caterpillar tractor
- Lubricates gears on earth-moving tractor
- Lubricates hose winder
- Lubricates joints on stock panels
- Lubricates latches on horse stalls
- Lubricates moving parts on combines
- Lubricates moving parts on farming equipment
- Lubricates moving parts on tractors
- Lubricates rototiller axle
- Lubricates rototiller blades
- Lubricates rusted casters on rolling planters
- Lubricates squeaky weathervanes
- Lubricates steering linkages on tractor
- Lubricates throttle cables on rototillers
- Lubricates tractor shredders
- Lubricates well crank handle
- Lubricates windsock swivels
- Lubricates worm gears in chicken house on poultry farm
- Penetrates stuck bolts on cultivator shovels
- Prevents swamp cooler from burnout or seizing
- Protects barrels and metal containers against rust and corrosion
- Protects fertilizer distributors
- Protects tools from corrosion
- Protects wheelbarrow beds from rust
- Reconditions brass tips on crop field sprayer nozzles
- Removes adhesive from the tails of show calves
- Removes buildup from milking machine pulsator
- Removes crud from hoof trimmers
- Removes debris and lubricates automatic poultry feeders
- Removes debris and protects fertilizer spreader after use
- Removes debris from hoof trimming chute
- Removes debris from rototiller bits
- Removes dirt from pitchforks
- Removes graffiti from latex fences
- Removes grease from rubber hoses
- Removes gum from chicken feathers
- Removes gunk and lubricates electric horse clippers
- Removes gunk and protects pitchforks
- Removes gunk from hydraulic tips on quick connectors on tractors
- Removes gunk from PVC valves

- Removes heavy mud and grime from shovels
- Removes mud and debris and protects wheelbarrow beds
- Removes resin from waterpipes
- Removes snarls from horse manes & tails
- Removes stuck on debris from wood planter bed
- Shines wheelbarrow tires
- Softens and dissolves dried manure from work boots
- Unsticks electric sheep shears
- Eases removal of heavy dirt from shovels
- Helps keep paint on farm machinery shiny and free from cracks
- Keeps clay from sticking to shovels
- Keeps hose ends from corroding
- Keeps pitchforks rust-free
- Loosens rusted parts of antique farm dinner bell
- Lubricates tractor throttle cables
- Lubricates wheelbarrow wheels
- Prevents rust on rototiller blades during off-season
- Protects heavy-duty cutting heads
- Protects trailer hitch locking mechanism
- Removes snarls from horse hair & manes
- Removes tar from chassis
- Prevents calcium buildup on sprinkler heads
- Prevents corrosion on irrigation systems
